Las Cruces and Mesilla Valley

CORN CONTESTS FOR BOYS WILL BE HELD

Fair Association Officers to Be Elected at Next

Las Cruces, N. M., Feb. 13 .- At the next meeting of the Farmers' institute which will be held at the court house in this city on the first Saturday in March an election will be held for the officers of the Dona Ana county fair association. At the institute meeting on Sat-urdey a committee composed of R. P. Porter, J. E. Mundell, A. R. Heineman, A. J. Fountain and Mr. Davidson, was appointed to nominate the officers for the fair association and present their

names to the next meeting. At the March meeting professor H. H. Schutz, of the agronomy department at the Agricultural college, will make a talk on corn growing and will take the first step toward the organization of a boys' corn growing contest. It is the intention to have as many clubs as possible organized throughout the county and valley, the purpose being to get the younger people interested in the work of the farm. The corn growing contests will be conducted along the lines of the same contests which have proved so successful in the corn belt of the states, prizes to be given, and all the aid rendered to the boys that is possible. Professor Schutz has sent for samples of the corn raised in some of the boys' contests in the states and will have these samples on exhibition in Las Cruces as soon as they ar-

AZTEC COPPER COMPANY HAS GOOD SHOWING.

Las Cruces, N. M., Feb. 11 .- The Aztec Copper company, which was recently incorporated to do business in the Organ mountain mining district, has uncovered ore which runs very high in value. One test shipment of silver ore has been made to the El Paso smelter, picked samples of which assayed 80 ounces of silver, 40 percent of lead and \$1.60 in gold.

A 100-pound sample of lead-carbonate from the San Augustine claim.

which is owned by this company, asrayed officially 107 ounces of silver. On February 3, on property belongleg to the Aztec company adjoining the Modoc mine on the west slope of be Organ mountains, a strike was made on a 16-inch vein which assayed is percent of copper and 12 ounces of sliver. This property has only recently seen acquired by the company and is being developed as rapidly as possible There seems to be no doubt but that the mines in the Organ district are beginning to show values which will make their owners fortunes. Heretofore the mining operations have been confined almost entirely to surface work, but since the slump in copper and the consequent closing down of the mines, the work that has been done has been on a deeper level and now the real leads are beginning to be exposed, all of which are running very high in copper, silver and lend.

Ed Keightly, wife and son, of Mar-Missouri, have rented the building formerly known as the Portales sanatarium, and will open it as commercial hotel.

BIG ADDITION TO PECOS WAREHOUSE; BUILT OF CONCRETE 13.—The Pecos Pecos, Texas, Feb. Mercantile company has began work on a 65x100 foot addition to the north side of its warehouse. This addition is to be reinforced concrete, and extends north to the P. V. S. railroad rightofway. The floor also will be of concrete. The floor and platform, which extends full length on the north side and east end will be on a level with the floor of the cars.

The company intends building a spur along the north side so that it can load Victoria Samaniego, warranty deed to a house and lot situated in precinct 3 expensive drays. and unload the cars onto the platform It is the intention of the company to employ home labor in the construction

of this building.

TAKING RELIGIOUS CENSUS OF PECOS TO BEGIN SOON Pecos, Texas, Feb. 13 .- The Sunday school association of Reeves county of which Rev. J. B. Cole, paster of the first Baptist church of this city, is president, and M. L. Swinebart, secretary, and not the Pecos Ministers' association, will have charge of the taking the religious census of Pecos. Representatives of the different Sunday hools in the city met at the residence of Rev. Mr. Cole and mapped out plans for the work, which resulted in the city being districted into 16 parts and an enumerator being selected for each

By this method it is thought that a complete census can be secured with nore accuracy than otherwise. The religious population of the city will be large and will comprise probably 90 percent of the inhabitants.
